Subject: Examples of activity tracking (from assumption)
Attachments: Gantt_Florida404Assumption_20180212_RelevantExpanded.pdf;
Condensed_Program_Submission_Review__ESA_NHPA.xlsx

Hi, Mark – Jeaneanne asked me to send along examples of the kinds of tools we've used to track all of the many moving pieces of Florida's assumption request. The PDF is a Gantt chart made with TeamGantt.com, a tool that involves subscription but supports frequent shifting of timelines without needing to manually update each data point. The other is a more recent Gantt chart made using Excel – already in the EPA toolbox, but a lot more work if you have multiple lines to track and your schedule shifts frequently.

Please let me know if you need any more information,
Rosemary
